ABOUT THE COMPANY

RAX TECHNOLOGIES is a company with expertise in Information and Communications Technology services. We are an ICT brand that provides technological services that cater for every aspect of corporate trade industries, and international oil and gas services, with a mandate from OOO Dotorg for petroleum products covering the entire Africa.

RAX TECHNOLOGIES began its business operation as a software, hardware and network solutions in **August 2012**, and has overtime, built a client base of esteemed organizations and corporate entities, from our professional and excellent service delivery.

At Rax Technologies, we focus exclusively on high quality and cost-effective software development and implementation of services, in line with the global response to technological advancements. **RAX TECHNOLOGIES** is currently doing business in several sectors including Government, Banking, Multinational Corporations, Large Corporate, Telecom and in the Media.

Our products and services are tailored to meet the requirements of our clients, irrespective of the size or field of the organization. We provide optimum service and solutions that are flexible and specially customized to the needs of your company or organization.

We strive towards establishing our brand as the leading choice in Computing and Information Technology Services, Consultancy and Development by offering a full spectrum of ICT services for organizations present and future need.

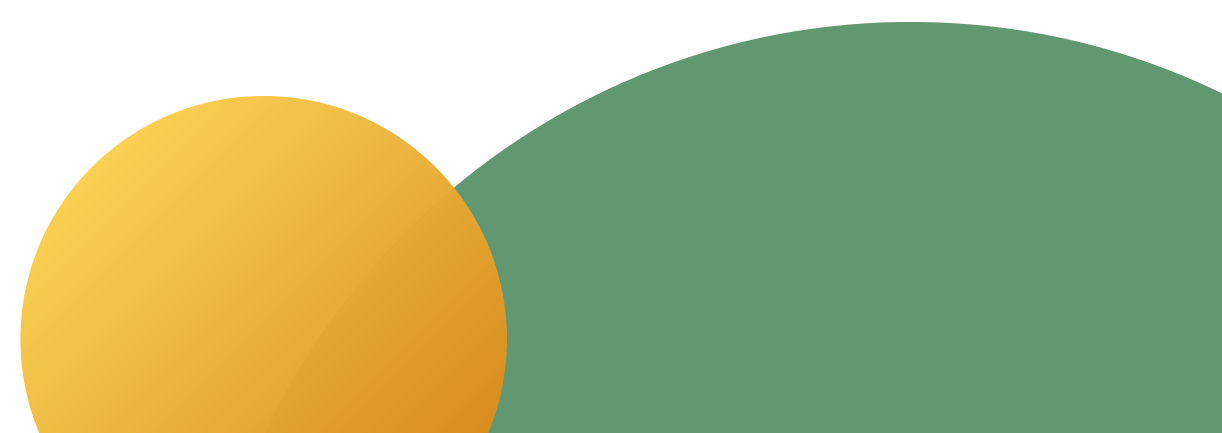

OUR SERVICES AND OPERATIONS

• **ICT CONSULTANCY**

We provide high-end technology and implementation consultancy for our clients. We also engage in system upgrade to enhance existing facilities of our clients, integrating the new technology with the existing one. **RAX TECHNOLOGIES** also conduct gap analysis to ascertain the ICT needs of your business from your existing infrastructure, to bridge the gap and upgrade your ICT facility from the past to the present with provision for alignment with future technological advancement, to keep your organization up to date with the latest and smartest way of doing business, for growth, profitability and sustenance.

Our consulting services covers but not limited to:

- ICT facility Strategic planning
- ICT infrastructure and architectural development
- ICT facility Assessment
- Procurement
- Re-engineering solutions
- Planning, audits, best practices etc.
- International oil and gas services

• SOFTWARE DEVELOPMENT

Asides our hardware and network solutions, our design and development expertise in diverse platforms, best-of-breed tools and techniques, combined with industry best practices, RAX TECHNOLOGIES offers scalable end-to-end application development and management solutions from requirement analysis to deployment and rollout. We develop software, related to garments- production management, commercial jobs, buying, accounting software for trading, manufacturing house and conglomerates. Our cost is reasonable and competitive.

We cover the following lifecycle services in our operation:

- APPLICATION DEVELOPMENT – Providing end-to-end software development from requirement analysis to deployment and rollout.
- APPLICATION MAINTENANCE – Maintaining, changing or enhancing software to meet up with evolving or increasing business demands in the post-rollout phase of an application.
- APPLICATION SUPPORT – Providing first, second, third line support and on-call support. On-call support further includes Gold (24x7), Silver and Bronze support to our esteemed clients.
- APPLICATION INTEGRATION/ MIGRATION/ TRANSFORMATION – Replacing, migrating and integrating legacy or bespoke systems with COTS products.
- APPLICATION MANAGEMENT – The application management layer cuts across all software engineering activities listed above. RAX TECHNOLOGIES takes complete ownership of the outsourced suite of applications as per the agreed scope manages the the support. This typically involves transition management, project management, proactive risk and scope change management, quality management, SLA management etc.

• NETWORK & INFRASTRUCTURE SERVICES

Consistent Growth in the Solution Integration (SI) services market is fueled by the need for seamless business processes across an organization's complete value chain of customers, partners, suppliers, and employees. At RAX TECHNOLOGIES, our services enable clients to identify, develop, and implement the best-fit solutions which are equipped to meet their changing business requirements.

Our Solution Integration services offer to:

- Leverage on IT investments
- Minimize risks
- Maximize compatibility
- Maximize interoperability

RAX TECHNOLOGIES provides total project management, from architectural design, integration, system and interface development to migration backed by world-class methodologies, well-defined solution frameworks and extensive integration experience with tier-1 service providers.

• **HARDWARE SALES & SUPPORT SERVICES**

RAX TECHNOLOGIES is into the sale of servers, computers, computer accessories and services by sourcing from local and international markets, bringing you the best in quality and cost.

We are also into the Supply, Delivery & Installation of:

- Data Centre, Structure Cabling Systems
- CISCO Switch, Firewall, Wireless & Routers.
- KASPERSKY antivirus and UTM
- PC, Server & Storage

STRENGTH AND CAPABILITIES

The development team of RAX TECHNOLOGIES is equipped with competent staff with specializations in different system development areas.

The key areas are:

· **SYSTEM ANALYSIS & DESIGN**

System analysis and design team combines both functional and technical analysts. We believe in developing a system, and conducting functional and technical analysis to validate its efficacy. Our system analysis and design team specialize in software like Microsoft Visio, Rational Rose and Microsoft Visual Modeler.

· **SOURCE CODE REPOSITORY AND ADMINISTRATION**

For source code version control and multiple programmer interaction management, we use “Visual Source Safe”, as our source code control software.

· **DATABASE MANAGEMENT**

We have database expertise ranging from ISAM or flat database systems like Microsoft Access, Visual FoxPro to robust commercial database engines like Oracle and Microsoft SQL. For web-database connectivity and cross-platform data management, we also have specialized experience and expertise in My SQL database server.

· **WEB DEVELOPMENT AND DESIGN**

Our web developers and designers are skilled in Web development with Microsoft Front Page, Macromedia Fireworks and Dream Weaver for web site design.

· **PROGRAMMING**

Our young and talented programmers have a wide range of experience in developing systems.

Our programming skill involves:

• **PROGRAMMING LANGUAGES:**

VB, Visual C++, Java, VB for Application (VBA) and Microsoft .Net Platform.

• **WEB PROGRAMMING LANGUAGES:**

PHP, Perl/CGI, Active Server Pages (ASP)

• **SCRIPTING LANGUAGES:**

Java Script, VB Scripts

• **MULTIMEDIA DEVELOPMENT:**

Flash and Flash Script.

• **WEB SERVERS:**

Microsoft IIS and Apache

• **OPERATING SYSTEMS:**

Microsoft Platform and Linux/Unix
